

Just the Facts

THE WYNN HOSPITAL

Each week, "Just the Facts" provides information about a key aspect of The Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we're transforming healthcare in our region.

TOPIC FOR TUESDAY, APRIL 27, 2021:

Have the winners of the Build Your Own Hospital contest been announced?

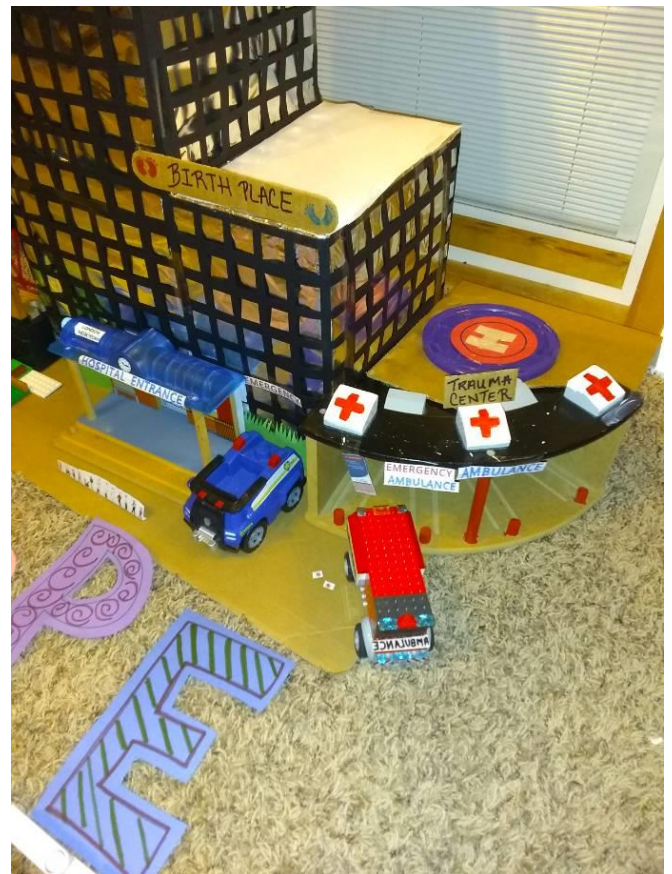

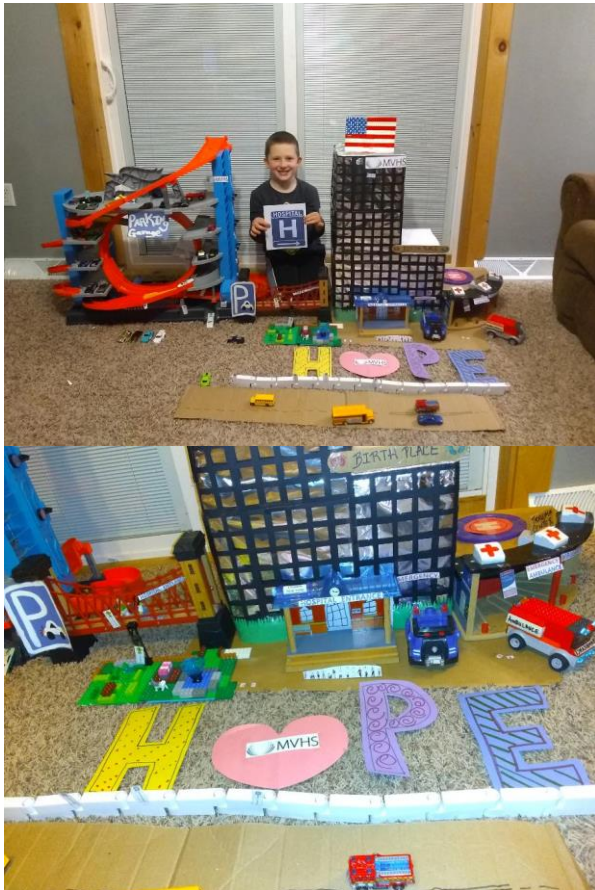

Yes! This past March, MVHS, along with project partners for The Wynn Hospital, Hammes Healthcare and Gilbane Building Company, held a Build Your Own Hospital contest for kids in grades K-8. This fun project was held to recognize Women in Construction Week and to get more kids and young girls interested in the building and construction industry.

We were blown away by the number of submissions – over 100 – and had a very hard time choosing the winners. We awarded a grand prize to a hospital build by a child in each age group (K-2, 3-5, 6-8) and also gave away prizes to the finalists.

Below are pictures of the winning hospitals and some information about the kids who built them.

Calib Brooks, Second Grade, General William Floyd Elementary

Calib's favorite part about his hospital was challenging himself to build it and his biggest challenge was time. When Calib grows up, he wants to be a farmer.

Addie Zysk, Third Grade

Notre Dame Elementary School

Addie's favorite part about her hospital is the helipad and her biggest challenge was building the first floor. When Addie grows up, she wants to be in the CIA. (Addie's submission is pictured to the right.)

Haylie Grant, Sixth Grade

Holland Patent Middle School

Haylie's favorite part about her hospital is the work she did painting it and her biggest challenge was sanding. When Haylie grows up, she wants to be an actress. (Haylie's submission is pictured to the left.)
