

Just the Facts

THE WYNN HOSPITAL

Each week, “Just the Facts” provides information about a key aspect of The Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we’re transforming healthcare in our region.

TOPIC FOR TUESDAY, MARCH 8, 2022:

Women in Construction Week 2022

This week, March 6-12, we are celebrating our Women in Construction. Women in Construction Week was founded in 1953 by 16 women in the construction industry, and was created to support the few women working in construction at the time. The women on The Wynn Hospital project team are not only working hard on building our new hospital, but also serve as ambassadors to inspire and empower more women to join the field of building construction.

As a part of Women in Construction Week, The Wynn Hospital project team will be joined by a panel of experts from the local unions for a free program about opportunities for women in construction. Empowered Pathways, Working Solutions, Hammes and Gilbane will host the event which will be held on Wednesday, March 30 from 12:30 p.m. to 2 p.m. at The Wynn Hospital Project Office, 201 Lafayette Street, Utica. Email Amanda at afiore@empoweredpathwayscnyc.org to register for this event (check out the attached flyer for more information).
