

Just the Facts

WYNN HOSPITAL

Each week, "Just the Facts" provides information about a key aspect of the Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we're transforming healthcare in our region.

TOPIC FOR TUESDAY, SEPTEMBER 13, 2022

How does quality control work during construction of the Wynn Hospital?

As part of the quality control process, Gilbane and their subcontractors have mocked up several rooms to the exact specifications provided by the architect (NBBJ), engineer (SSR), and interior designer (CAMA). Our plan is to walk the project team through the rooms to inspect and call out any imperfections that need to be fixed/replaced. This week we walked NBBJ through all three finished Intensive Care Unit (ICU), Labor and Delivery (LDR) and Medical/Surgery patient mockup rooms.

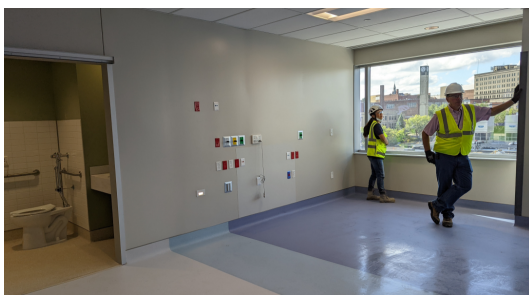

Take a look at the photos below to get a preview of how these rooms should look once the hospital opens in 2023!
