

# Just the Facts

WYNN HOSPITAL

Each week, "Just the Facts" provides information about a key aspect of the Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we're transforming healthcare in our region.

## TOPIC FOR TUESDAY, DECEMBER 13, 2022:

### ***What nurse call system will be used in the Wynn Hospital?***

The nurse call system within the hospital allows the patients to get the necessary help or assistance with ease. ASCOM will be the nurse call provider at the Wynn Hospital and is what we currently use at MVHS. However, the system in the Wynn will be much more advanced than our current system.

Throughout the Wynn Hospital, there will be master stations with touch screens, visual dome lights and annunciator panels (a group of lights used as a central indicator of status) that will allow the clinical team to see where the person is, what type of help they need and assign a nurse to assist them, all within a matter of seconds. This advanced nurse call system allows patients to get the necessary help or attention they need while at the same time managing workflow among the staff in the Wynn Hospital.
