

Just the Facts

WYNN HOSPITAL

Each week, "Just the Facts" provides information about a key aspect of the Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we're transforming healthcare in our region.

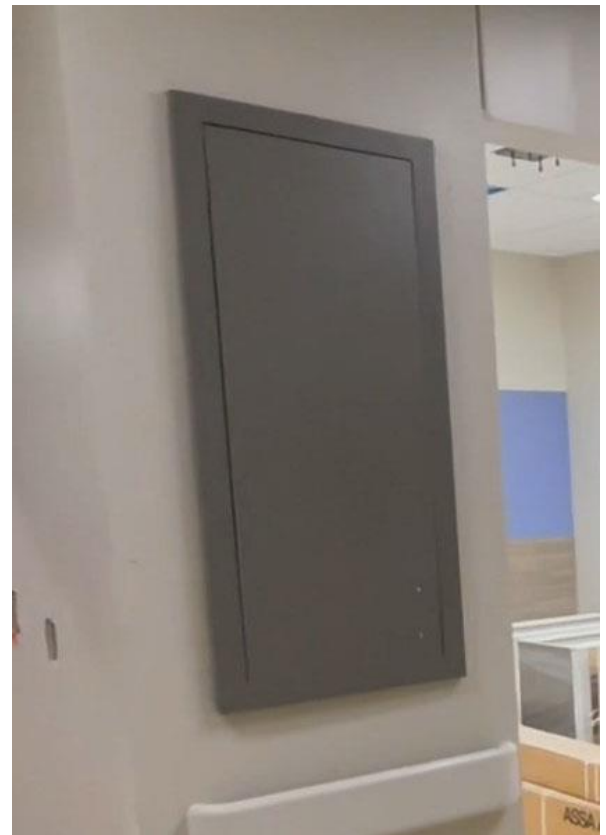

TOPIC FOR TUESDAY, JANUARY 10, 2023:

Millwork Progress

As finishes progress throughout the Wynn Hospital, the installation of millwork continues. The millwork in the Wynn primarily consists of cabinetry, shelving and counters in areas like Nutrition, Kitchenettes and Break Rooms, and each patient room has a cabinet, a counter and patient wardrobe.

Team stations are located throughout the hospital, and this millwork is uniquely designed around the functionality of the workflow of clinicians and specific departments. Similarly, check-in and reception desks are designed around the flow of traffic and functionality.

Another unique piece of the millwork is in the Emergency Department and features supply cabinets in each room that are accessible from both within the room as well as from the corridor side. This allows staff to restock items, from linens to gloves, without having to enter the room or disturb the patient.

Pictured above is the ED supply cabinet that is accessible from both sides.
