

# Just the Facts

WYNN HOSPITAL

Each week, "Just the Facts" provides information about a key aspect of the Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we're transforming healthcare in our region.

## TOPIC FOR TUESDAY, JANUARY 24, 2023:

### *Supplies in the Wynn Hospital*

Operational Readiness Planning has been used for the past two years to get staff ready to work in a brand new building where everything is different from what they're used to.

One aspect of Operational Readiness is to review all supplies currently used at both the St. Luke's and St. Elizabeth campuses and determine what will be used and needed in the Wynn Hospital. Clinical and Purchasing staff have been reviewing supplies in very specific detail, determining what will be used in the future, how and where they will be stored for easy staff access, and inventory levels.

Sample supply carts have been mocked up and reviewed, and at a recent meeting, Nursing Leadership and Purchasing reviewed supplies that are currently used at the two campuses, and selected what products will be best used going forward. In some cases, different products were used for the same purpose.

Consistency going forward will ensure a standard of care in all areas, as well as a more efficient supply chain process.
