

# Just the Facts

WYNN HOSPITAL

Each week, "Just the Facts" provides information about a key aspect of the Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we're transforming healthcare in our region.

## TOPIC FOR TUESDAY, MARCH 28, 2023:

### *Loading Dock*

The Wynn Hospital will receive deliveries of goods and supplies as well as remove unwanted waste through its loading dock. The large loading dock is located on the west end of the building and is composed of two bays. One for receiving deliveries and one for removing soiled waste. It was designed to be fully accessible by the "back of house" operations to avoid any interruptions.

During construction, the loading dock provides the project team a temporary area to easily transport equipment and materials to the proper locations. All deliveries are scheduled and coordinated through Gilbane to ensure they are received by the appropriate party and directed to their specific location in a timely manner.
