

Just the Facts

WYNN HOSPITAL

Each week, "Just the Facts" provides information about a key aspect of the Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we're transforming healthcare in our region.

TOPIC FOR TUESDAY, JULY 18, 2023:

Wynn Hospital Interior Signage

Interior signage is critical for effective wayfinding to guide patients, visitors and staff throughout a facility. On Monday, July 10, ASI Signage Innovations began installing interior signs in the Wynn Hospital. Starting on level three, a team of installers placed custom-made patient and wayfinding signs throughout the floor. ASI will install more than 3,000 signs throughout the building! ASI's custom interior signage solutions comply with current Americans with Disabilities Act (ADA) Accessibility Guidelines and follow universal design principles to ensure wayfinding information and signage placement meet the needs of patients, visitors and staff. All signs include braille and have been mounted at ADA height.
