

# Just the Facts

WYNN HOSPITAL

Each week, "Just the Facts" provides information about a key aspect of the Wynn Hospital being built by Mohawk Valley Health System (MVHS). It is designed to keep our medical staff, employees and volunteers updated and to share with family, friends and neighbors so we keep our community informed about how we're transforming healthcare in our region.

## TOPIC FOR TUESDAY, SEPTEMBER 26, 2023:

### *Wynn Hospital MRI is Now Live*

On Monday, the new magnetic resonance imaging (MRI) machine in the Wynn Hospital went live and is ready for use once we move into our new hospital.

Two weeks ago, the MRI machine was filled up with Helium to about 80 percent. This past Monday, the machine was "ramped" up to become magnet. This is done by attaching a power supply to the unit and pumping current into the system until the desired final current level and field strength are attained. The external power supply is disconnected and the magnet current continues indefinitely through a loop.
