- All pharmacy services located in one strategic location.
- State-of-the-art modular IV Clean Room USP-800 and 797 compliant.

## Overview of Mohawk Valley Health System

Serving a three-county geographic area in Upstate New York, MVHS provides comprehensive services and quality care for the residents of Central New York through the Wynn Hospital, 21 outpatient care locations and multiple health centers. Accredited by Det Norske Veritas (DNV) under the National Integrated Accreditation for Healthcare Organizations (NIAHO) standards for compliance with Centers for Medicare and Medicaid Services (CMS) Conditions of Participation (COPs), our sites have achieved recognition over the years as:

- A Level III Trauma Center
- A Level II Special Care Nursery
- The first hospital in New York State to receive the HeartCARE Center: National Distinction of Excellence
- One of only seven Comprehensive Stroke Centers in Upstate New York
- A Center of Excellence in Orthopedic Surgery
- A Comprehensive Bariatric Surgery Center
- A Breast Imaging Center of Excellence.

In October of 2023 the Wynn Hospital, MVHS's new, state-of-the art flagship hospital, opened in downtown Utica. This new, 10-story, 703,000 square foot facility and central utility plant is located on a 25-acre parcel adjacent to the Downtown Utica business district. This Clinical Campus includes development of a parking garage, physician office building, support facilities and a business center. The Wynn Hospital provides a modern facility with private patient rooms, large windows to enhance healing and flexibility to keep pace with rapidly changing technology and delivery models.

# Introducing a new PGY-1 Pharmacy Residency Program to the Mohawk Valley

The new flagship hospital for the Mohawk Valley Health System (MVHS), Wynn Hospital, is located in the heart of historic downtown Utica, New York. Prospective residents will join a transforming healthcare organization committed to excellence in regional healthcare and will become a part of an exciting, brand new state-of-the-art facility.

Residents are an essential part of moving the Pharmacy Department in a new expansive direction where they will be an integral part of multidisciplinary patient care and a valuable member of the healthcare team. The Pharmacy Department offers a high degree of computer innovation, distribution and inventory management within our fully-integrated electronic medical record system, Epic.

PGY-1 Pharmacy Practice Residents at MVHS will be involved in a dynamic and collaborative environment.

## Educational Program Overview

The PGY-1 Pharmacy Residency Program curriculum will provide experience in a variety of clinical settings under the guidance of select clinical and non-clinical pharmacy staff members.

The training experiences will be built upon built upon four week rotation blocks within the 52 week training program. Orientation will be followed by core required rotations and select elective rotations, based on availability of preceptors. The residents will also participate in year-long longitudinal experiences as part of their requirements for completion of the program.

The goal of the program is to prepare the resident to assume independent clinical practice by the end of their residency learning experiences. It will also prepare the resident to pursue a PGY-2 program, fellowship or academic position, depending on their career aspirations and goals.

Supplementing the residents' clinical learning experiences will be journal club presentations, medication utilization evaluations, formulary drug reviews and teaching experiences.

Residents will also have the opportunity to contribute to the education of PharmD students through co-precepting responsibilities, as well as teaching opportunities in the St. Elizabeth College of Nursing.

Resident's weekend staffing responsibilities will include, but are not limited to, clinical pharmacokinetics, antimicrobial stewardship and pharmacy operational services.
