## **Recognized as a NYS Patient-Centered Medical Home by the National Committee for Quality Assurance (NCQA)**

One of the highest designations available for primary care practices, it demonstrates that the medical practice has invested in the tools, systems and processes needed to deliver high quality and patient-centered coordinated care.

## **Accessing Healthcare Services in Old Forge/Town of Webb**

It's important for both residents and visitors to know how to access healthcare in Adirondack towns such as Old Forge and Town of Webb. The following provides what to do if there is an emergency and what emergency and primary care resources are available.

### **In Case of Emergency – Immediately Call 911**

- This call will be answered by a Herkimer County dispatcher, and based on your location they will send an ambulance from one of four ambulance companies, including Old Forge Volunteer Ambulance Corps, Raquette Lake and Town of Inlet.
- The responding medical personnel will determine if your injury or condition requires air transport. In certain circumstances, the 911 dispatcher will automatically put a helicopter on standby based on the nature of the emergency and emergency service personnel will utilize one of the two air medical services – Mercy Flight Central or LifeNet, both of which are located in Rome, New York.
- Depending upon the severity of your injury or illness, you will be either driven by ambulance or air lifted to the Wynn Hospital, or another area hospital.
